

STOP
DAMAGING GRUBS

PROVEN RESULTS WITH GRUB GONE®

Grub GONE!® is a biological grub control that was approved for use in Ontario and replaces the previous Nematode grub control service.

The first of its kind, *Bacillus thuringiensis galleriae* (Btg) is a bio-insecticide that controls white grub larvae with the equivalent efficacy results achieved by synthetic grub control products, including the European Chafer.

- ✔ All-natural active ingredient; *Bacillus thuringiensis galleriae*.
- ✔ Effective control against 1st – 3rd instar grub infestations.
- ✔ Evenly applied as a spreadable, odourless granular.
- ✔ Safe for people, pets, children, bees, birds, beneficial insects and flowering plants.
- ✔ Irrigation of 1/2 inch (1.25 cm) within several days following the application, is required.
- ✔ Provides up to 90% reduction of European Chafer larvae (grubs) when watered properly.
- ✔ Treatments are scheduled in July to early September to target young grubs.

Time is running out.
